

Garden valve with plastic handle

Our garden valves are self-draining and therefore frost-proof even if you forget to dismantle the garden hose before the season with degrees below zero. However, we recommend that you always remove the hose and coupling when there is a risk of low temperatures.

Article number: 42930610

Description: For wall thickness max. 600 mm

- Self-draining
- With plastic handle
- With approved non-return valve
- Frost-proof even if the hose/coupling is connected
- Can be cut to suit wall thickness
- Wall bracket: H=106 mm, W=66 mm, diagonal screw holes

Uniqe characteristics

Backflow protection unit type
